

SCIENCE AND DATA EXCELLENCE

This certificate is presented to

Pacific States Marine Fisheries Commission

for excellence in supporting science and data throughout California to assist the Fish Passage Advisory Committee (FishPAC) and all fish passage professionals in communicating data to FishPACs for assessment and barrier locations, quality assurance and quality control of the Passage Assessment Database (PAD), education at FishPAC workshops, FishPAC mapping for fish passage and wildlife connectivity, story maps, watershed maps and modeling, and for support of road/stream and habitat surveys in Santa Barbara after the fires and mudslides devastated the watersheds, making existing data obsolete.
